It is the legal right of men, women or children to enter a country with or without paperwork, if they intend to apply for asylum. Pushbacks are the illegal practice of a state preventing them from doing so by stopping them entering its territory, or forcing them back across a border or into the waters of another state. The Greek government has hugely increased illegal pushbacks of refugees since March 2020, with some victims stating they have been beaten and robbed by Greek officials before being forced back across borders, or into the sea.

Pushbacks

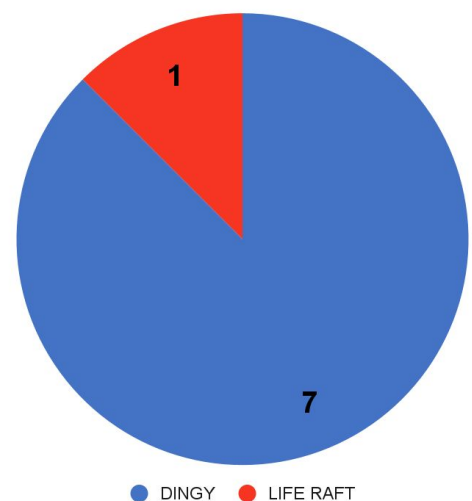

Total pushbacks 2026: 8

In March Aegean Boat Report have registered 8 pushback cases in the Aegean Sea, involving 236 children, women and men who tried to reach safety in Europe. Most of them was stopped at sea and forced back across the border, left helplessly drifting in boats and life rafts in the middle of the sea, illegally deported by the Hellenic Coast Guard (HCG), on orders from the Greek government, so far there has been no reaction from the EU on these illegal atrocities.

Pushbacks by island

Pushbacks by craft type

No cases involving the use of life rafts were documented this month. This does not indicate a change in practice. The use of life rafts to carry out pushbacks in the Aegean is well documented, with people left drifting at sea without means of navigation. In previous months, a percentage of those recovered by Turkish authorities had already been pushed back by Greek authorities, pointing to a continued pattern despite the absence of recorded cases.
